Senate Curriculum Committee Report 2014-2015

Committee

Adaikkalavan, Raman
Bindroo, Vishal
Costello, Matthew
Dielman, Carmen
Douglas, Kenneth
Jones, Sharon

McIntosh, John
Muniz, Jorge
Okrah, Kwadwo
Saksena, P.N.
Surma, Dave
Thomas, Susan (Chair)

A site in Oncourse was established to review courses and program proposals. In addition to forum discussions, the Senate Curriculum Committee met:

- 9/15/14
- 9/18/14
- 10/10/14
- 11/14/14 - no quorum
- 12/12/14
- 2/15/15
- 4/15/15

Discussion Topics:

Learning Objectives
Suggestion was made to compile information on how to write learning objectives to post on Curriculum Committee website. UCET has information. Firm Faith can be listed as someone who can help. The information could also be sent to School/department Chairs and Curriculum Committees. Below are links identified to help in writing learning objectives.

- http://www.celt.iastate.edu/teaching-resources/effective-practice/revised-blooms-taxonomy/
- https://www.iusb.edu/ucet/resources/AZteachinglearning.php

In November, it was discovered that the Curriculum Committee website was not linking to the specific requirements for new degree. Susan met with Michelle Bakerson and agreed upon changes/additions to the website. Michelle made changes. The curriculum committee may want to discuss establishing specific criteria/required documentation when reviewing course and program proposals.

Syllabi
Question about syllabus. Is a syllabus required for all course proposals? Required for graduate course proposals. Committee members believe the syllabus helps when reviewing course proposals. Will continue to request syllabi.

**Degree Map Requirement**

Question about degree map requirement. Why is this being required? What is the justification for the requirement? Will all course requests be required to have a degree map? To be discussed at next meeting.

12/12/14 meeting Guest Speaker: Linda Chen (Academic Affairs) discussed degree maps and the difference between degree maps and curriculum maps. The Curriculum Committee should be aware of degree maps but their intended use is for advising and degree completion. New degree proposals should include a four year plan for completion.

Curriculum maps demonstrate how a course fits into the major's learning objectives/outcomes, and will be required for all course requests beginning **January 2015.**

**Approved Programs**

Bachelor of Science in the Health Sciences – new degree program for College of Health Sciences

Bachelor of Science in Dental Hygiene - program changes approved

Bachelor of Science in Health Care Management
